SUMMARY

Web Developer with 2+ years of professional experience building responsive and user-friendly web applications. Proficient in HTML, CSS, JavaScript, React.js, Firebase, and MySQL, with hands-on experience in frontend development, database integration, API integration, and responsive UI design. Experienced in working remotely with development teams and delivering practical web solutions. Passionate about writing clean, maintainable code and continuously learning new technologies to solve real-world problems. For details [click here](#).

WORK EXPERIENCE

Web Developer — Boosting Agency BD

Jan 2024 - Aug 2026

Worked remotely as a Web Developer, developing and maintaining responsive websites and web applications. Collaborated on frontend development, implemented interactive features, optimized user interfaces, and ensured cross-device compatibility and usability.

Web Developer — Kingdom

Sep 2026 - Present

Working as a Web Developer, contributing to the development and maintenance of modern web applications. Responsible for building responsive user interfaces, implementing web features, fixing issues, and improving overall application performance and user experience.

PROJECTS

Emergency Blood Network

[Link to Demo](#)

A web-based emergency blood donor platform that connects patients with nearby blood donors. Implemented donor search, blood group filtering, emergency requests, and responsive user interfaces to simplify and accelerate blood donation coordination.

Tourism Bangladesh

[Link to Demo](#)

A responsive tourism platform designed to showcase popular tourist destinations across Bangladesh. Provides destination information, location-based exploration, and an intuitive interface to help users discover and plan their travel experiences.

English Janala

[Link to Demo](#)

An interactive English vocabulary learning application that helps users improve their vocabulary through categorized words, meanings, examples, and interactive learning features. Designed with a clean and responsive interface for an engaging learning experience.

Orbric Clothes

[Link to Demo](#)

A modern responsive web application focused on delivering a clean and user-friendly digital experience. Developed with reusable UI components, responsive layouts, and interactive frontend elements for cross-device usability.

Emergency Service BD

[Link to Demo](#)

A centralized emergency service platform for quickly accessing essential emergency contacts and services in Bangladesh. Designed with a responsive interface to help users find relevant emergency information quickly and efficiently.
